VOLUME 172 – OCTOBER 1990

CONTENTS

page

NÚÑEZ-ABADES, P. A., PORTILLO, F. and PÁSARO, R. Characterisation of afferent projections to the nucleus ambiguus of the rat by means of fluorescent double labelling 1

PARKER, T. L., MOHAMED, A. A. and COUPLAND, R. E. The innervation of the adrenal gland. IV. The source of pre- and postganglionic nerve fibres to the guinea-pig adrenal gland 17

ZELLER, U. and RICHTER, J. The monoptychic glands of the jugulo-sternal scent gland field of *Tupaia*: a TEM and SEM study 25

CARRILLO-FARGA, JOAQUÍN, CASTELL, ANDRÉS, PÉREZ, ARMANDO and RONDÁN, ADRIAN. Langerhans-like cells in amphibian epidermis 39

PASTOR, L. M. A morphological study of the tracheal epithelium of the snake *Natrix maura* 47

BENJAMIN, M., EVANS, E. J. and PEMBERTON, D. J. Histological studies on the triangular fibrocartilage complex of the wrist 59

BRAY, R. C., FISHER, A. W. F. and FRANK, C. B. Fine vascular anatomy of adult rabbit knee ligaments 69

STEWART, ROSEMARY, NELSON, J. and WILSON, D. J. Growth of the chick area vasculosa *in ovo* and in shell-less culture 81

YOSHIMURA, A., FUJITSUKA, N., SOKABE, M., NARUSE, K., NOMURA, K., DIWAN, F. H. and ITO, F. Classification of the intrafusal muscle fibres in the frog muscle spindle: histochemical and immunofluorescent studies 89

CODESAL, JAVIER, REGADERA, JAVIER, NISTAL, MANUEL, REGADERA-SEJAS, JAVIER and PANIAGUA, RICARDO. Involution of human fetal Leydig cells. An immunohistochemical, ultrastructural and quantitative study 103

JAYASINGHE, N. R., COPE, G. H. and JACOB, S. Morphometric studies on the development and sexual dimorphism of the submandibular gland of the mouse 115

MAINA, J. N. A morphological and morphometric study of the prosimian lung: the lesser bushbaby *Galago senegalensis* 129

MARTI, E., BELLO, A. R., LANCHA, A. and BATISTA, M. A. P. Neuropeptide tyrosine (NPY) and its C-terminal flanking peptide (C-PON) in the developing and adult spinal cord of a reptile 149

RASPANTI, MARIO, OTTANI, VITTORIA and RUGGERI, ALESSANDRO. Subfibrillar architecture and functional properties of collagen: a comparative study in rat tendons 157

MCDONALD, F. and HOUSTON, W. J. B. An *in vivo* assessment of muscular activity and the importance of electrical phenomena in bone remodelling 165

MITCHELL, B. S. and STAUBER, V. V. Morphological, histochemical and immunohistological studies of the paracervical ganglion in prepubertal, pregnant and adult, non-pregnant guinea-pigs 177

MAYHEW, T. M., MWAMENGELE, G. L. M. and DANTZER, V. Comparative morphometry of the mammalian brain: estimates of cerebral volumes and cortical surface areas obtained from macroscopic slices 191

IWASAKI, SHIN-ICHI and MIYATA, KEN. Fine structure of the dorsal epithelium of the mongoose tongue 201

JOHNSON, D. R., O'HIGGINS, P. and MCANDREW, T. J. The effect of diet on bone shape in the mouse 213

MILNE, NICHOLAS. Sexing of human hip bones 221

O'REILLY, P. M. R. and FITZGERALD, M. J. T. Fibre composition of the hypoglossal nerve in the rat 227

SANNASGALA, S. S. M. M. K. and JOHNSON, D. R. Kinetic parameters in the growth plate of normal and achondroplastic (cn/cn) mice 245

HOFMAN, MICHEL A., GOUDSMIT, ELMER, PURBA, JAN S. and SWAAB, DICK F. Morphometric analysis of the supraoptic nucleus in the human brain 259
